UP

ADVANCE

Reliability and ease of use: these are the key words of the **CUBE** line. The **UP** control panel with buttons combines practicality and great durability. The simple and extremely efficient electronic card offers the possibility of setting and controlling the rinsing and draining times, the washing and rinsing temperatures and the relative Thermostops, crucial for ensuring excellent washing results. The **ADVANCE** panel (optional) is the real strength of the CUBE line thanks to its 4 washing cycles and one automatic drain cycle (with drain pump installed). On the control panel you can easily view the tank and boiler temperature, the messages of the Self-diagnosis system, the Scheduled Maintenance warning and the intelligent Start button, which changes colour to always display the dishwasher status very easily.

The **C426** model, available with round basket or with square basket, is suitable for washing cups, saucers and glasses with a clearance of up to 265 mm, using a single 120-second standard cycle in the UP version.

The standard **double electric rinse-aid and detergent dispenser** ensures maximum hygiene at each wash cycle with great savings: the **moulded washing and rinsing arms** ensure reliability and durability. The bodywork is made entirely of **AISI 304 steel** and has been designed with all of the components in the front for **easy technical assistance**. Sturdy and reliable dishwashers to best deal with every moment of your day.

DISHWASHERS FEATURES	CUBE LINE C426
Dimensions - (mm) L - P - H	470x535x660h
n° baskets/hour - (+55°C)	30
